

In May, 2016, Eli Lilly (Suisse) SA, discovered that direct value provided to Switzerland-based patient organizations throughout 2015 was mistakenly omitted from the original published report, thus the original disclosed data was not entirely accurate and complete. The previously omitted data is now reflected in this amended report, which should replace the original report.

Eli Lilly and Company's disclosure of its support to patient organizations is one of the activities undertaken by the Company to improve transparency concerning Company dealings with third parties. Most of the data had to be compiled manually across a number of legal entities and countries. Eli Lilly and Company herein declares that the Company has made its best efforts to make a comprehensive disclosure of concerned activities.
